

D. Anne Gunia

Keynote Speaker, Technology Strategist, & CEO

Helping Organizations Simplify Technology, AI, and Cybersecurity

Feeling overwhelmed by AI, cybersecurity threats, and digital change? You're not alone. Many leaders struggle to make sense of it all, and the uncertainty can be paralyzing.

As an expert in cybersecurity and IT compliance with over 20 years in business, D. Anne helps you cut through the noise and jargon, gaining clarity and confidence in the process. You'll transform your relationship with technology, making informed decisions that drive business success and mitigate risk.

After an hour with D. Anne, your audience will have the tools they need:

Unlock Tech Confidence

- ✓ Gain clear tools to navigate today's tech landscape
- ✓ Make smart tech choices with confidence
- ✓ Turn tech uncertainty into a competitive advantage

Transform Work Experience

- ✓ Save time and work more efficiently
- ✓ Do better work and stay valuable
- ✓ Reduce frustration and focus on meaningful work

Solutions for Success

- ✓ Overcome AI overwhelm
- ✓ Start using AI and tech simply and effectively
- ✓ Boost value and impact with practical strategies

What People Are Saying

D. Anne was definitely one of the highlights of our event. Her knowledge and bright personality blended well to make her presentation insightful and fun. I am so happy to have made her acquaintance and am fortunate she was willing to be a participant on our panel on artificial intelligence and its impact on small business. I would highly recommend her. - **Peter Volpe, Time Bank**

D. Anne's expertise on cybersecurity is unparalleled. Her presentation is engaging, relevant, and easy to understand while delivering real value. She shares practical, real-life examples of cybersecurity threats and clear ways to mitigate them. I highly recommend booking her for a presentation today-everyone will walk away having learned something new!. - **Erica C, Lakeside Bank**

Keynote Topics

Keynote #1: Artificial Intelligence

Prompt Your Life:

How to Use AI to Amplify Your Strengths, Multiply Your Impact, and Build Your HUMAN Edge

In this keynote, D.Anne explores how leaders can embrace AI without fear and build teams that combine human insight with emerging technology.

Keynote #2: Cybersecurity

The Human Firewall:

Cybersecurity Starts with Leadership—Not Technology

D.Anne breaks down cybersecurity in plain English, helping leaders navigate digital risk with greater clarity and confidence. Discover simple leadership shifts that turn your people into your strongest line of defense.

I'd love to collaborate and empower your audience with technology confidence, overcoming overwhelm and harnessing AI & cybersecurity best practices. As a tech firm owner and cybersecurity expert, I'll help make complex technology accessible and actionable.
